

I want to give much thanks to Caden Vittorini for everything he has done for my son. I am not sure if Caden realizes what an impact he has made on him. My son was diagnosed with severe anxiety and OCD. My son has been struggling with this for 5 years now. His anxiety has stolen his joy in life. It would stop and prevent him from doing the things that he loved. It also stopped him from day-to-day activities and just being a kid. My son has been in therapy for 5 years now and we have even experimented on other treatments that was supposed to help with his anxiety. It did not work. I was introduced to Caden through a friend, and I decided to reach out in hopes that he can help my son. The day I reached out to Caden, I explained everything that was going on and he told me he would be able to help him. Fast forward, my son has been seeing Caden now for four months and we have seen so many positive changes in my son. My son has confidence, motivation, purpose, and the drive to better himself. I see him happy and enjoying life again. Caden has motivated my son in so many ways and not just as a life coach but also as a friend, a role model, and a person he can trust. Caden, I can not begin to thank you enough for what you have done for my son. You have impacted my son in so many ways and because of you my son has gotten his life back and is no longer controlled by anxiety. My husband and I are so grateful for you, and we are so blessed that God has placed you in my boy's lives.
